SPECIAL INFORMATION

Please read carefully

Avoid disappointment by ordering early. Quantities are very limited on some varieties and you will be assured of the best selection by making prompt reservations.

Unless specified, roots will be shipped between April 15 and May 1. Earlier shipments not recommended or guaranteed against freezing, drying out or rotting. Green plants are usually shipped between May 15 and June 15.

Please make your order amount to \$2.00 or more. It actually cost us as much to handle a \$2.00 order as it does to ship a \$5.00 to \$10.00 order. The same amount of detail work, inspection, packing, carton and handling is required.

Our quotations include all ordinary transportation charges fully paid. If you wish "Special Delivery," add 25c to your remittance. We recommend that green plants should travel Special Delivery to insure prompt and careful handling.

Guarantee: We guarantee every root or plant sent out by us to be true to name, and in a healthy condition when received, after which our responsibility ceases, as we have no control over growing conditions. GENERAL DESCRIPTION OF VARIETIES

Foreword . . . On account of limited catalog space, our descriptions are necessarily brief, being confined primarily to the color and special growing characteristics.

While all of the varieties we list are nationally known and recognized as outstanding leaders of the Dahlia World, we will be glad to supply more complete description upon request.

1936 INTRODUCTIONS

Abbreviations—(F. D.) Formal Decorative; (I. D.) Informal Decorative; (C.) Cactus; (S. C.) Semi-Cactus; (Inc. C.) Incurved Cactus; (Str. C.) Straight Cactus.

GRAND SLAM (Hulin)—A very wavy Semi-Cactus; color front petals tyrian rose, back petals light pink with citron yellow reverse; size 8 to 10 inches; can be used for both exhibition and commercial; a very stiff stem, although it needs disbudding to get best results; clean dark foliage; broad leaves; insect-resistant; average height 5 feet; a medium early bloomer and plenty of blooms; branches do not spread, coming rather straight.

Plants Only \$5.00 Net

JERSEY'S WHITE BEAUTY (Waite)—For the last two years this great white has been a sell-out on the New York market as a cut flower. In the 1935 New York show it won as the best white Formal in the section for medium-sized blooms. It is a clear glistening white, and the habits of the plant and size of the blooms are very much the same as Jersey's Beauty, except that it is a more profuse bloomer.

Introducers Plants Only \$5.00

MILTON J. CROSS (Johnson)—Unquestionably the champion Dahlia of the eastern shows this year. This magnificent flower will unquestionably take its place with the outstanding exhibition varieties. It is a nicely-proportioned, very large bloom of great depth and beauty. The color is a clear gold at the center of the flower, shading to light orange-buff on the outer half of petals; the color is bright, rich, and pleasing.

Plants Only \$7.50

MARGRACE (Hillside Farm)—Here is a great Dahlia. Made about the best record of the year. Informal; color, bright red, tipped gold with light reverse; size 10x6; strong, stiff stems 8 to 15 inches; position good heavy and wide spreading foliage; plant 5 to 6 feet in height; medium early bloomer; blooms hold their size well and centers always closed. An attractive variety.

Plants Only \$5.00

MIRIAM HOPKINS (Cordes-Eastman)—This Dahlia resembles Amelia Earhart particularly in color; a Semic-Cactus, rather loosely formed but of great depth and diameter; color, salmon pink and rose combination; an early and prolific bloomer, height of plant 5½ feet. **Plants Only \$5.00**

NORMANDIE (Velie) — A real giant and one that will appeal to the Dahlia hobbyist who gives the extra care to winning the big bloom prizes. This Dahlia is about the biggest Dahlia "afloat." The color is a bright mallow-pink, striped with silver pink. Produces 12 to 14 inch blooms. **Plants Only \$5.00**

OAKLEIGH MONARCH (Oakleigh Gardens)—Formal; exhibition type; cerise red in color; blooms 10 to 14 inches; heavy stems; with canes two to three feet long; tough foliage and insect resistant; height 6 feet; medium early bloomers; a strong, rugged grower; blooms keep well **Plants Only \$5.00**

PRIDE OF AUSTINBURGH (Strasen) — Informal; exhibition type; color grenadine pink and light orange yellow, dark center and reverse light purple; size of bloom 10½ inches; a cane stem 10½ inches to first set of leaves; leathery foliage and bug resistant; 4 to 4½ feet in height; a mid-season bloomer and prolific.

Plants Only \$5.00

PRIDE OF AMERICA (American Dahlia Farms)—The actual appearance of this Dahlia is misleading because of its perfect proportion. The blooms grow naturally 10 to 12 inches, but it gives no appearance of massiveness. The color is a clear primrose-yellow, with pale tints of flush-pink showing on some of the petals as well as the reverse. The flowers are on perfect stems well above the foliage. This is going to be a difficult Dahlia to defeat in the classes calling for perfection of bloom.

Roots \$15.00; Plants \$7.50

ROYAL PURCHASE—(Salem Dahlia Garden)—In-curved cactus; color yellow outer petals suffused pink; blooms 10 to 11½ inches, field grown; the petals twist and turn giving the big blooms a most pleasantly shaggy appearance; a long and straight stem; foliage is spare and medium green; a profuse bloomer; blooms held high out of the clean foliage.

Roots \$15.00; Plants \$7.50

QUEEN CITY (Peck)—A formal, commercial type, of a scarlet pink color; size 7 inches with depth of 4 to 5 inches; excellent stems on long upright branches starting from near ground; height of plant 3 to 4 feet; a very early and continuous bloomer and develops blooms exceptionally rapid; a remarkable cut flower variety.

Plants Only \$7.50
